

How do I log in to my electronic financial file?

Dear relation,

We will provide you with a login code of our software package **Figlo**.

You will receive the password directly from the package.

The username for your personal file has been received by e-mail.

With the combination of the received Password (this is automatically generated by our system and sent to you by email) and your Username, you can access the software.

We would like to point out that these codes are strictly personal. Protect them well, because with the combination of these codes, all your personal financial data can be accessed!

The use of these codes is at your own risk.

The login code has three variants:

- a **temporary** code (during the advisory process)
- an **extended** code (for a fixed fee per month)
- a **continuous** code (costs included in your Service Subscription)

In the overview, provided by the software, you will find your entire private financial situation.

Follow the steps below to get into your personal file:

1. Go to <https://europe.figlo.com/Studio/mijnkluis/>
2. Click on 'Login' (top right corner).
3. Here you can enter your **Username** and **Password** and gain access to your personal financial environment.
